**\*EVENTS/ACTIVITIES/GRANTS:**

A. AFG-FY2021-funds were disbursed twice. Once in February 2024 but had the wrong bank account #. After weeks of a lot of call & emails, still have not received the \$\$ to our bank BUT FEMA has record that the check for \$138,486.05 has been deposited into our accounts. Flagstar bank has no records of this amount. As of 9/19/24 I still haven't gotten any further along finding this money. I have left emails to all supervisors at each company beside our bank as I am not on the account to ask questions;

**\*PUBLIC COMMENTS/REQUEST:**

I was asked by a community member, Ted Stimfel. Mr Stimfel would like to know if there is a way that the solar companies could have some kind of "Community Ajert System" Inside the Lithium Battery containers, to alert the community members if the batteries were to catch fire. As 9/16/24 Clearway will get back to us about a question asked re "alert system in the Lithium Battery cases for the public"
