Hi Kayleen & Paula,

I applied for technical assistance for the Community Change Grant that is due in Nov. They want to know if we are signed up in Sams.gov and grants.gov. See this paragraph:

If you know for sure that we are NOT, then let me know so we can get that done.

We request you sign up for access to SAM.gov and Grants.gov soonest as the account activation process can take a month or more for new registrants. For more information on how to register, visit the EPA's website. In the meantime, I encourage you to become familiar with the CCG Notice of Funding Opportunity (NOFO).

Thank you,

Rose

Subject: Community Change Grants Technical Assistance Eligibility Decision

To:

Dear Community Change Grants Technical Assistance Requester,

Thank you for your interest in receiving technical assistance (TA) for the EPA's *Environmental and Climate Justice Community Change Grants Program (CCG)*. **Your request is eligible for technical assistance and a TA Provider will contact you in the coming weeks.**

Community Change Technical Assistance (CCTA) is being provided by EnDyna and its partners. We can help your community develop project designs, partnerships, budgets, and connect you with subject matter experts to help ensure grant application requirements are met. You may also access TA after receiving an award to help you manage, oversee, perform, and report on your grant.

We request you sign up for access to SAM.gov and Grants.gov soonest as the account activation process can take a month or more for new registrants. For more information on how to register, visit the EPA's website. In the meantime, I encourage you to become familiar with the CCG Notice of Funding Opportunity (NOFO).

You can find more details about TA on the CCTA website. There you will find informative webinars on various aspects of applying for a CCG grant and can also check out our Resources

Tab. Additional links can be found below my signature block.

If you have questions, please contact 1(800) 540-8123 or email [EJ\\_TechAssist@epa.gov](mailto:EJ_TechAssist@epa.gov).

Thank you for your participation in the CCTA Program.

Sincerely,

**Justine Noel**
