

**REQUESTED CHANGES TO MAY 2024 CSD PRIORITY LIST**

NOTE: The Priority List is a PDF document. I do not have the ability to directly edit a PDF document therefore my input is contained in this Word document.

1. The Priority List needs a date or a version on the first page to make it possible to differentiate different versions of this list, which is a working document.
2. Item 65 should be moved into Priority 1 Category. The need for public donations for our projects is constant and the cost and labor to set up separate accounts is low.
3. Item 57 appears to be 1) outside of CSD authority and 2) already provided by commercial service (Burris).
4. Item 56 is vague and may be outside of CSD authority.
5. Items 52 and 53 have already been addressed by the Board and determined to be “not feasible” (see report).
6. Item 49 needs to be moved up in Priority ranking.
7. Item 44 needs to be revised as the Board has within the last 18 months passed a Motion to contract with an electrical engineer to determine the overall electrical needs of the Park. This needs to happen before any wiring is upgraded.
8. Item 40 can be deleted. An emergency radio network has already been established by non-CSD community volunteers.
9. Item 37 can likely be deleted. Project has already been started by non-CSD community volunteers.
10. Item 35 should be re-assigned a lower priority such as priority 8.
11. Item 30 should be re-assigned as priority 1.
12. Items 16 and 17 are unclear as to what the deliverables actually are.
13. Item 7 has already been completed.
14. Item 6 appears to overlap with Item 44. Please see (7), above.

Director Unger Input (6/18/24)

15. Item 4 needs more description.

16. As Item 2 is shown as priority 1, a report on current and past classes would be beneficial. What classes have already been taken in the last year?
